LAUNCHED IN 2014

SUCCESSFULLY RUN ACROSS DIFFERENT CITIES IN THE LAST 5 YEARS

NOW LAUNCHING FOR THE FIRST TIME IN CHENNAI!

WHY DO YOU NEED THIS WORKSHOP?

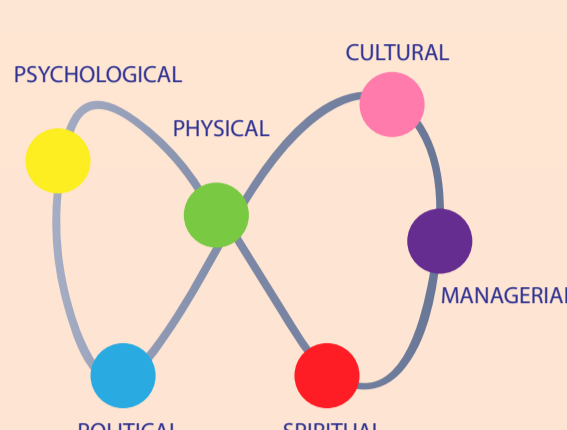

SOME POWERFUL REASONS TO CONSIDER....

WHAT YOU KNOW NOW IS INSUFFICIENT TO CATAPULT YOU INTO THE FUTURE

Leaders are now discovering that their knowledge and skills that enabled them to become leaders, are no longer sufficient to address the complex challenges facing them today and in the future. Leaders need more knowledge, better skills, and more effective behaviors that can transform their leadership for the 21st century.

6 DIFFERENT PERSPECTIVES TO REFRAME YOUR THINKING

Leaders are lacking the perspicuity of a simple leadership framework – this denies them the opportunity to address complex challenges with perspicacity. Leaders need a simple, yet sophisticated model, that provides them with multiple perspectives, enabling them to generate better choices for their decision making.

GIVEN THE DYNAMIC BUSINESS ENVIRONMENT THAT LEADERS ARE IN, WE BELIEVE, AN interconnected and a multi-perspective approach is necessary now, for leaders to discover and develop a broader set of skills, competencies and behaviours needed to navigate a fast-changing VUCA* and SMACASB* environment. When this new approach is aided by expert facilitation, the potential for blended learning, and opportunities for peer coaching; the possibilities for positive change in leaders are multiplied.

*VUCA (Volatile, Uncertain, Complex, Ambiguous)
SMACASB (Social, Mobile, Analytics, Cloud, Artificial Intelligence, Security and Blockchain)

FAILING TO MEASURE RESULTS

GLOBAL LEADERSHIP AND COACHING WORKSHOP HAS STRIVED TO OVERCOME THESE ISSUES THROUGH A -

- Quality of Prework and Assessments** that work to distill the essence of each attendee's needs and context to their Leadership Challenges (from various stakeholders and the individuals themselves). Every module of the program ensures maximum relatedness to the individual's context for his current development and future growth.
- Straight from the start to the post program support**, the program is structured so as to tackle the **real time challenges of the leaders'**. This approach has ensured maximum application of learning post program.
- The program has a strong focus on behaviour changes by leveraging the transformative power of coaching. Having been developed by practitioners, business leaders and Master Certified coaches, this program is built with the **focus on how leaders can change set behaviours / mindsets**, to achieve their desired goals and potential. The mix of various levels of coaching during the program, and **post program for 6 months** lends a beautiful support for the leaders to gain maximum benefits and tap into the depths of diversity in the group.
- We **track the leader's journey for a period of 8 months** and have touch points at intervals to help track their progress and provide the right levels of expert support to help them achieve their desired goals.
